

It's a brand new week!
And there is so much to learn.
So come along!

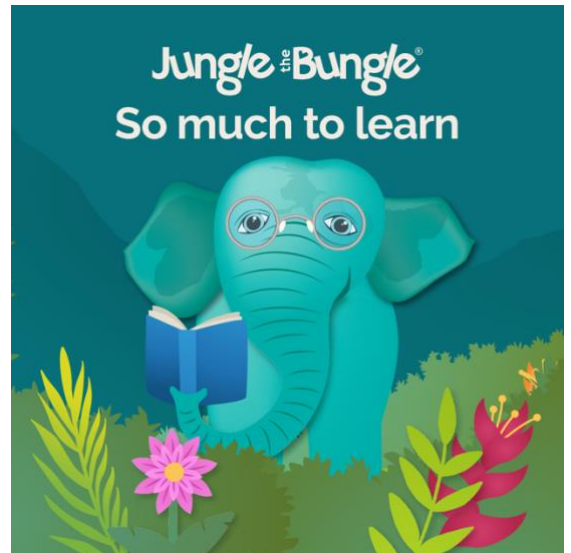

Monday morning we're in class.
Get your stuff, out your bags.
A brand new week is waiting for us.
Learn to read and write and draw,
or mathematics, you can do it all!
Try again when it's getting though.

Now tell me what you've learned today,
come along and sing with me!

One, two, three, four and five, six, seven, eight, nine and ten.
Yeah that's right, you're doing great.
Let's sing along with the days of the week.
Monday, Tuesday, Wednesday, Thursday and Friday.
Saturday and Sunday we can chill,
before a new week starts again.

Do your best, pay attention,
and if you don't know, just raise your hand.
No you can't be wrong when asking questions.
Let's move forward, turn the page.
Do you know the answer? Then take it away!
And if you're done you can always do some more.

Tell me what you've learned today,
come along and sing with me! Hey!

One, two, three, four and five, six, seven, eight, nine and ten.

Yeah that's right, you're doing great.

Let's sing along with the days of the week.

Monday, Tuesday, Wednesday, Thursday and Friday.

Saturday and Sunday we can chill,

before a new week starts again.

Hey! I can count to ten and know the days of the week!

Hey! Now I can count to ten and know the days of the week!

If you pay attention, you'll learn every day.

One last task before we go out and play.

One, two, three, four and five, six, seven, eight, nine and ten.

Yeah that's right, you're doing great.

Let's sing along with the days of the week.

Monday, Tuesday, Wednesday, Thursday and Friday.

Saturday and Sunday we can chill,

before a new week starts again.

Hey! I can count to ten and know the days of the week!

Hey! Now I can count to ten. Before a new week starts again.
