1 2x vooruit = groen

2 1x rechts draaien = rood
3x vooruit = groen

3 2x vooruit = groen
1x rechts draaien = rood
1x vooruit = groen

4 2x rechts draaien = rood
4x vooruit = groen
1x links draaien = geel
3x vooruit = groen

5 1x vooruit = groen
1x links draaien = geel
5x vooruit = groen

6 1x vooruit = groen
1x links draaien = geel
1x vooruit = groen
1x links draaien = geel
1x vooruit = groen
1x links draaien = geel
1x vooruit = groen

Deze opdracht kan gemakkelijker gemaakt worden met de functielijn aan de rechterkant. Leg hier een groen en geel blokje in en 3 blauwe in de wachtlijn. Cubetto zal dan 3x vooruit gaan en links draaien. Sluit de wachtrij af met een groen blokje.
